MICROLENS™
WITH SPEECHTRAX²

**Think hearing aids should be heard, not seen?
Then MicroLens by MicroTech is for you.**

MicroLens, the first custom fit invisible-in-the-canal hearing aid, features MicroTech's latest technology on the market — meaning it's completely invisible, and totally designed to fit your lifestyle.

**MicroTech's best
technology in an
invisible* style.**

Featuring SpeechTrax², MicroTech's latest noise reduction and speech preservation system designed to filter out background noise

Fits comfortably in the second bend of your ear canal

Designed to be removed daily to promote better ear health

Virtually no whistling or buzzing

Custom designed for your ear

Designed to work on the phone

Designed to fit your life.

Lunch conversations

MICROLENS[™]

No matter where you are or what you're doing, MicroLens is designed to make listening easier. It's the ideal hearing aid for people who are active and on the go, enjoy spending relaxing time at home — or both.

Movies, music & TV

Theater and live music

Precious moments

Best of Both Worlds.

That's because MicroLens fits comfortably inside the second bend of your ear canal—completely out of sight and completely off your mind.

Don't be fooled by its small size. Only MicroLens comes packed with MicroTech's innovative technologies, including our latest feedback canceller, and noise reduction and speech preservation system. The result is a 100% invisible hearing aid that is designed to deliver:

Utilizes MicroTech's latest technologies to automatically recognize and reduce noise for more comfortable listening in loud environments.

Designed to fit snugly in the second bend of your ear canal.

It's the first invisible-in-the-canal hearing aid custom fit specifically for your ears and hearing needs.

Technology

Benefit

Invisible-In-The-Canal

The first 100% custom, invisible, digital and fully programmable hearing aid

Strategic Feedback Control

Virtually eliminates buzzing and whistling

SpeechTrax²

Designed to maintain speech understanding in noise, and reduce listening effort**

T² Remote Control

Lets you adjust memory or volume settings using any touch-tone phone

FrequencyTrax

Replicates hard-to-hear high-frequency sounds in lower frequencies, designed to enhance and expand audibility

If you've been interested in extended wear products but have found you weren't a candidate, talk to your hearing professional about MicroLens, the latest in invisible hearing aids.
