A Sonova brand

PHONAK
life is on

With Phonak Naída Marvel we introduce multifunctional hearing aids that deliver a love at first sound experience

Proven benefits

This new generation of Phonak technology recognizes and automatically adapts to precisely match more listening situations than ever before¹. With AutoSense OS™ 3.0 and Binaural VoiceStream Technology™, your patients can enjoy better memory recall and reduced listening effort in noise.²

Key highlights:

- Better speech understanding in noise with Roger³
- Reduced listening effort in noise*²
- Better memory recall in noise*²
- World's first super power hearing aid with classification of streamed audio signals¹

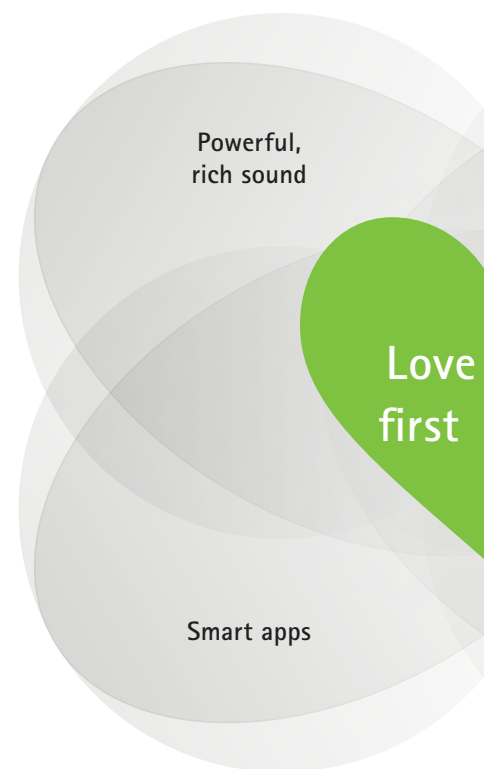

Get the most out of Phonak Marvel™

The new digital service platform from Phonak is dedicated to improving your patients' personal listening needs. Through the **myPhonak app**, your patients can choose to share information with you, you can customize their listening experience in real-time, and with the advanced Remote Control function your patients can adjust their hearing aid settings to their individual needs.

Key highlights:

- Real-time sound adjustment and personalization
- Real-time remote video support

Phone calls can be challenging, especially with background noise. With the **Phonak myCall-to-Text app** your patients can hear the conversation in their Marvel hearing aids, and read in real-time what the person on the other end of the phone says. A free version of the myCall-to-Text app is available. Try it out now!

Redefining connectivity

Naída Marvel is the world's first super power BTE with hands-free calls that directly streams to iOS®, Android™ or other Bluetooth®-enabled devices. Your patients can enjoy hands-free phone calls with built-in microphones. Naída also delivers stereo sound quality streaming for music, videos, audiobooks, podcasts and much more.

Naída features proprietary AirStream™ technology for streaming from any TV or stereo system. Your patients can enjoy TV programs and movies with the TV Connector, a simple plug-and-play solution. Marvel hearing aids can now distinguish between streamed speech and music signals, and automatically adjust for optimized sound quality.

Key highlights:

- Connects to smartphones – iOS, Android or Bluetooth phone
- Connects to a variety of everyday electronics
- Hearing aids used like wireless stereo headphones
- Extra-long streaming time thanks to AirStream technology

Roger™ technology boosts hearing performance in noise and over distance.³ Phonak Naída Marvel features RogerDirect™ which allows Roger technology to stream directly to Marvel hearing aids without having to attach an external receiver.

Key highlights:

- Marvel and Roger, the optimal solution for challenging listening situations
- Designed to improve speech understanding in noise and over distance
- Discreet and appealing solutions

Reliable

Naída is the most trusted power hearing aid.⁴ Thanks to expert engineering and design excellence, Naída Marvel can reliably deliver the power needed to manage a severe to profound hearing loss. Since the launch of our first power hearing aid in 1978, we have continuously created hearing solutions that are designed to improve people's lives. Powered by proven Marvel technology, the new Naída M-SP embodies a premium power hearing aid with dedicated key performance technologies that reliably deliver the power needed.

People with severe to profound hearing loss depend on their hearing aids and require a solution that truly delivers. The robust housing (IP68 rated⁵) enables your patients to continue with their everyday activities knowing that their hearing aids will function reliably and withstand even the toughest listening situations.
