Powered by AI-Driven DNN Technology

Sense Your Surroundings

AcoustIQ™ continuously monitors your environment and automatically adjusts sound settings in real time.

Focus in and Tune Out the Rest

Four synchronized microphones form a forward-facing beam so you can hear what you want simply by turning your head.

Engages Through the Noise

AI-powered denoising keeps speech clear and makes background noise feel more natural and less distracting.

Receiver-in-the-Ear (RIE)

World's smallest AI RIE
6% smaller than its closest competitor.

Custom Hearing Aids

CIC, ITC & ITE models
Rechargeable & non-rechargeable options
Upgraded across all technology levels.

Bi-CROS Solution

microRIE style models to support
single sided deafness or
bimodal compatibility.
