# The connection between health and hearing

Hearing health is directly connected to overall health and well-being. That's been proven, and it means people who are able to hear can engage with the world around them and live better and healthier lives.

Ever-increasing evidence also shows treatment of hearing loss with hearing aids can improve or limit some serious health issues like cognitive decline and dementia.\*

Livio AI lets people of all ages take a proactive approach to their overall wellness. Sensors inside the hearing aids detect movement, activities and different gestures. The hearing aids then communicate with each other, and with multiple accessories, to deliver meaningful benefits beyond traditional amplification.

You will not only hear better, but live better thanks to real-time feedback about your overall body and cognitive fitness.

# What making better connections sounds like

Livio AI intuitively connects to your Apple and Android devices via Bluetooth technology and Starkey's easy-to-use Thrive Hearing app.

Thrive offers additional features designed to enhance your listening experience anywhere you go, and help you easily enjoy everything you do.

## Body and Brain Health Tracking

Sensors are integrated into your Livio AI hearing aids so you can set daily wellness goals and easily track them via the Thrive app.

## Hearing Care Anywhere

Request adjustments from your hearing care professional who can then make them remotely so you don't need to make an appointment and stop in.

## Language Translation

Easily communicate with people who speak other languages via the easy-to-use translation tool in your Thrive app. (Requires an internet connection.)

## Personalized Control

Make personalized, real-time adjustments to suit your preferences in different listening situations.

## Phone Calls

Answer your calls with the touch of a button and hear an entire conversation streaming directly to your Livio AI hearing aids via Bluetooth® technology.\*

### Remote Control

Using the remote control feature in the Thrive app, you can change volume and switch memories on your hearing aids right from your smartphone.

### Find My Hearing Aids

Easily locate lost hearing aids using the Find My Hearing Aids feature, with both a location and timestamp. A signal detector sends a stronger or weaker signal based on how close you are to locating your Livio AI hearing aids.

### Personalized Memories

You can create multiple custom memories in the Thrive app by using any of the customize options.

You can even geotag memories. A geotagged memory will use GPS and cellular towers to recognize where you are and automatically adjust your Livio AI hearing aids when you enter that space. For instance, a geotagged “coffee shop” memory will automatically activate when you walk into your favorite coffee shop.

### Adaptive Car Mode

With Adaptive Car Mode, Livio AI hearing aids will automatically change to a setting designed to reduce the annoying sounds of driving and enhance your overall driving experience.

### Auto Experience Manager

Automatically adjusts your Livio AI hearing aids' loudness over time to help you transition to your new hearing experience in the most comfortable way possible.

### Siri Integration

You can have Siri® read texts and emails directly to your Livio AI hearing aids.\*

\* Only available with Apple devices.

# Enjoy universal connectivity with new accessories

Our new hearing aid accessories are powered with wireless connectivity to help users fully engage the world around them.

| TV |

Stream audio from your TV or other electronic audio source directly to your Livio AI hearing aids. It offers excellent sound quality, is easy to use and supports both analog and digital input sources.

| Remote Microphone + |

Easily stream from a variety of audio sources. And thanks to Remote Microphone +, Livio AI is the first hearing aid to feature Amazon® Alexa connectivity.

| Remote |

Our new remote includes updated features so you can control memory and volume, mute your hearing aids and turn other special features on and off.

# What living better sounds like

The convenience  
of adjustments  
on the go:

You can easily make adjustments to your Livio AI hearing aids any time, anywhere with the Thrive app.

To hear comfortably in challenging environments:

With Hearing Reality, Livio AI is effective in even the noisiest environments, comfortable in loud settings, and quiet in quiet settings. You'll also enjoy newly enhanced speech clarity.

Better wireless streaming:

New technology provides consistent wireless performance through your smartphone or Starkey Hearing Technologies accessories while streaming cell phones, TV, music and other media.

Hearing that happens intuitively:

Geotagged memories that automatically switch modes when the GPS feature in your smartphone detects you are in a tagged location. For example, a "home" memory activates when you arrive at home.

To live a more active and healthy life:

Livio AI is the first hearing aid ever to include integrated sensors so you can set body and brain health goals and easily track your progress.
