# Hear all *that life has to offer*

## SurfLink Media

This set-and-forget media streaming solution connects to TVs, MP3 players and more to wirelessly stream audio directly to your Triumph hearing aids, so you can hear the volume at the level you want, while everyone else in the room can listen at the volume they want.

## SurfLink Remote

This handy remote lets you adjust and control your Triumph hearing aids with the push of a button.

Combined with our innovative SurfLink® accessories, Triumph hearing aids can also make it easier to enjoy TV, music, cell phone conversations and more — no wires attached!

## SurfLink Mobile

Enjoy hands-free phone conversations with this one-of-a-kind device. That's because SurfLink Mobile turns your Triumph hearing aids into both your cell phone microphone *and* receiver:

**Microphone** — Your hearing aids can pick up your voice and send it to the person you're talking to

**Receiver** — SurfLink Mobile streams the voice on the other end of the phone directly to both of your hearing aids

But that's just the beginning. SurfLink Mobile is not only a cell phone transmitter, it's also an assistive listening device, media streamer, and hearing aid remote all rolled into one.
